

Customer Support SOP

Nexora Technologies Pvt Ltd | Controlled Internal Document

Document ID: NEX-CS-SOP-001

Version: 2.0

Status: Active

Effective Date: 2026-09-01

Owner: Customer Experience

Category: Customer Support

1. Ticket Intake

Support agents record customer identity, issue summary, affected service, urgency, and relevant evidence in the approved ticketing system.

2. Classification

Tickets are categorized by service, issue type, severity, and customer impact. Security or privacy indicators must be escalated immediately.

3. Response

Agents use approved knowledge-base content and should not invent product behavior, commitments, or policy exceptions.

4. Escalation

Critical service impact, suspected security incidents, privacy concerns, or executive customer complaints follow the escalation procedure.

5. Closure

Tickets are closed only after the resolution or next action is documented and the customer communication requirement is satisfied.
